**RE: Letter of Recommendation for Pitts Glass**

To whom it may concern:

STG Contracting Group, Inc. has had the pleasure of working with Pitts Glass on two projects within the previous 12 months. Pitts Glass completed the Crookshank Elementary School additional last year which included aluminum windows, glazed aluminum curtain wall, and aluminum storefront systems. In addition, they are currently under contract on a new 110,000 SF Elementary School in St. Johns County. They are currently +-75% complete with the new school and have performed well beyond our expectations. They have provided adequate manpower for the installation, timely submittal process, and have provided a very professional experience. The new elementary school also included aluminum windows, glazed aluminum curtain wall, and aluminum storefront systems.

STG Contracting Group would highly recommend Pitts Glass for projects of similar scope and size and we anticipate using them on our future projects.

Sincerely,  
STG Contracting Group, Inc.

  
Gene C. Staton, LEED® AP  
Chief Operating Officer
